▼ Getting to Know "Gosund" App

A.Functions of Devices

You can add listed devices by tapping the " + " at the top right of the home page.

1.Switch : Remote control
Switch function allows you to turn on/off your device anywhere. You can control the device anywhere as long as you have an internet connection on your phone.

2.Timer
With the timer feature, you can automatically switch on/off the running household appliance you are using.

3.Schedule

-10-

You can set your appliance on and off at a specific time as you want using this function, which will be convenient at night time when sleeping, or when you arrive and leave office or your home.

4.Statistics
You can view real-time your device's energy consumption, which keeps energy bills low by effectively managing your most power consuming appliances.
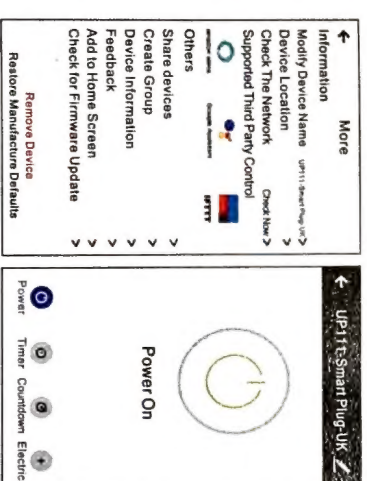

B.Scenes

1.Touch the right top icon, and then you can create your characteristics to the device as you want.
2.You can change the name of the device, and choose to control the device by third-party devices such as Amazon Alexa, Google Home and IFTTT.
3.You can share the device to your family or create a group to help you control your devices at home.
4.Using the scenes, you can choose Remove the device or Restore Factory settings.

Start By Saying
"Alexa, turn on hallway light"   English(US)

B.Control Smart Plug by Voice

After Alexa is linked to your "Gosund " App, you can now control the socket via Echo.

1.Discovering devices Simply say to Echo: "Echo (or Alexa), discover my device." or choose "add device" to discover the smart plug. Echo will start to find the device

which is added in "Gosund" app. It will take about 20 seconds to show the result. Or you may click "Discover devices" on the Alexa App, and it will successfully show available devices.

Note: "Echo" is one of the wake-up name, the other two names are Alexa and Amazon.

SETUP

Your plug has been added to your Alexa account. Next, we will set the device up for easy use.
SET UP DEVICE

SETUP
Connect your device to Alexa
1.Set up your device following the device brand app instructions
2.Follow the device brand instructions for connecting your device to Alexa
DISCOVER DEVICES

2.Support Skill List

You can control devices by instructions like below:
"Alexa, turn on/off (name of the smart socket)"
"Alexa, turn on lamp."
"Alexa, turn off lamp."

Note: The name of the device must be consistent with the name of the plug on the "Gosund" App. The

name is recommended to use easy pronunciation.Ation of English words. (Amazon Echo just supports English temporarily.)
